

PART Hits The Trail

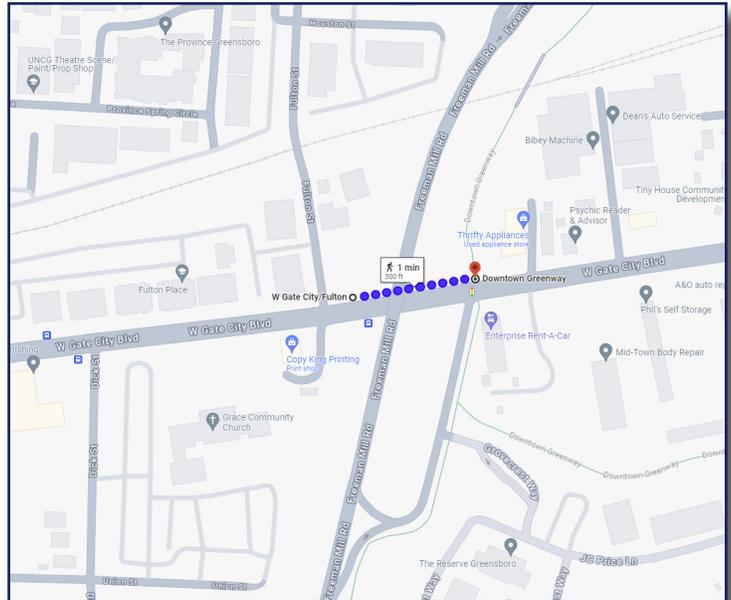

In a project undertaken by PART's Planning and Marketing Departments, collaborating with Agency and Community Partners, PART has launched its Transit To Trails web-based interactive map that enables riders of our local public transportation systems to access over 85 miles of trail and greenway systems in our region.

Whether you're a seasoned hiker, biker or just looking for a leisurely stroll, our buses can take you to some of the most beautiful outdoor destinations around.

Forget the hassle of driving and parking - sit back, relax, and enjoy the ride as our buses transport you to the trailhead. With easy access to the trails and greenways, you can spend more time enjoying nature and less time worrying about logistics.

From scenic walking paths to challenging trails, there's something for everyone to enjoy. So grab your hiking boots, get your bike out, maybe pack a picnic, and let the bus take you on an adventure through the great outdoors. Don't miss out on the opportunity to explore the beauty of our region's trails and greenways—take the bus and start your next outdoor adventure today! Most buses in our region have standardized bike racks.

Celebrate ... and Celebrate!

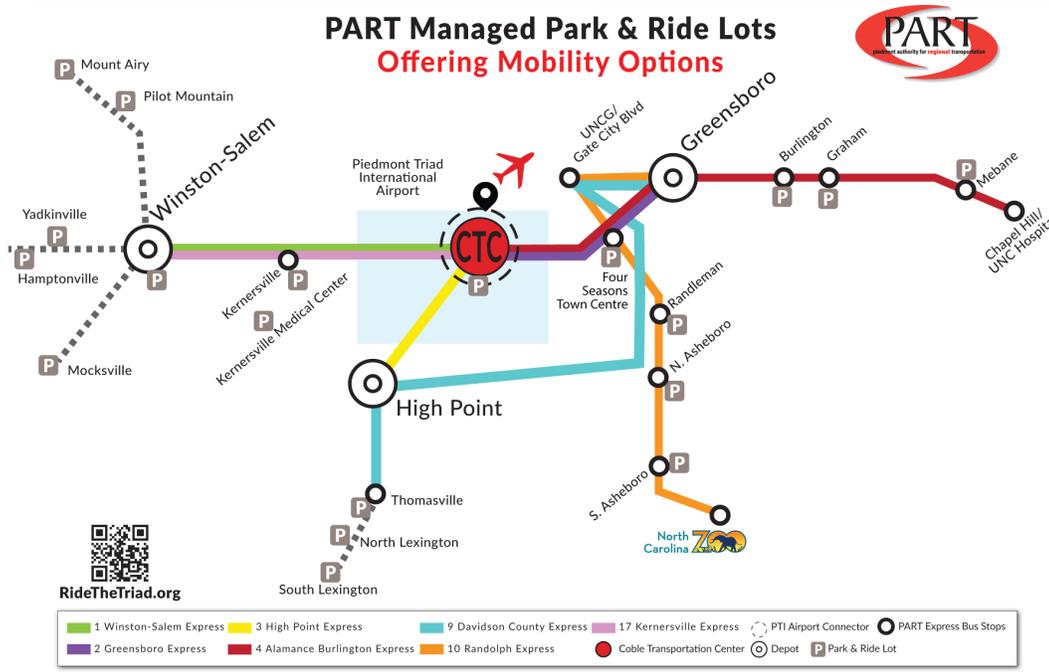

We had a fantastic day on March 18th, 2024, honoring our PART Express Bus Drivers for **National Driver Appreciation Day**. We celebrated their hard work and dedication to providing safe and reliable transportation. Our drivers play a crucial role in our community, and we are grateful for their exceptional service.

Oh Woe Is Me.

Drivers may easily calculate the financial cost of commuting alone, but the environmental impact is often overlooked. According to a study in Godo Stoyke's *The Carbon Buster's Home Energy Handbook*, car transportation contributes to 47% of the carbon footprint of the average American family with two cars. This makes it the largest source of household emissions and a key area for potential reductions. Data suggests that using public and/or shared transportation can lead to an 8.1% decrease in a household's annual carbon footprint.

By utilizing PART's Park & Ride Lots throughout the region, commuters can easily connect to other transportation options, save money, and reduce their environmental impact. Let PART make your commute more efficient and enjoyable by helping you connect to carpooling, vanpooling, and public transit. PART continues to play a critical role in helping commuters address costly and environmentally harmful commuting habits by offering convenient solutions to commuter woes.

Get Ready To Roll Into Greensboro

The N.C. Department of Transportation, in partnership with NC GO! and NC Chamber, will host the fifth annual N.C. Transportation Summit, Tuesday and Wednesday, May 21-22, 2024, at the Koury Convention Center in Greensboro.

The annual event provides a valuable platform for discussing crucial issues such as safety, funding, and innovation in response to the state's growing population and transportation demands. Attendees can expect engaging conversations and insights on how to address these challenges effectively. To learn more about this event, visit nctransportationsummit.com.
