**Drug Poisoning Deaths Involving Opioid Analgesics, Cocaine and Heroin: United States, 1999–2011**

\*Note: Not all drug poisoning deaths specify the drug(s) involved, and a death may involve more than one specific substance. The rise in 2009–2006 in opioid deaths is related to non-pharmaceutical benzoin use. <http://www.cdc.gov/mmwr/preview/mmwrhtml/mm5812a.htm>. \*Heroin includes illicit.
